

ENERGY VENTURE CAMP

You and energy are a lot alike. All that potential energy... stored up just waiting to do things, make things, go places. How can you use this valuable resource wisely? Invest some of your energy this summer.

- > Discover how the petrochemical and refining industries touch our lives in countless ways every day.
- > Meet with a panel of experts who can answer all your questions about working in an energy-related field.
- > Work in teams and participate in hands-on interactive games and exercises.
- > Find out about cutting edge technology and practices that allow the energy industry to develop and use resources in a safe, environmentally sound manner.
- > Experience what it's like in the "field" – visit an energy-related production facility.
- > Learn about career opportunities in the industry.
