

To enable pop-ups in Firefox:

Click on Options.

Next, on the left menu:

Uncheck this box:

The image shows a settings page titled "Content". On the left is a dark sidebar with menu items: General, Search, Content, Applications, Privacy, Security, Sync, and Advanced. The main content area has the following sections:

- DRM content**
 - Play DRM content
- Pop-ups** (circled in red)
 - Block pop-up windows
- Fonts & Colors**
 - Default font: Times New Roman (dropdown)
 - Size: 16 (dropdown)
- Languages**

Choose your preferred language for displaying pages

Once you uncheck the box, you should be able to view the virtual textbook through Blackboard now.
