

Insert a blank CD-R or CD-RW it should bring up an option window like what is below, choose “Open writable CD folder using Windows Explorer”

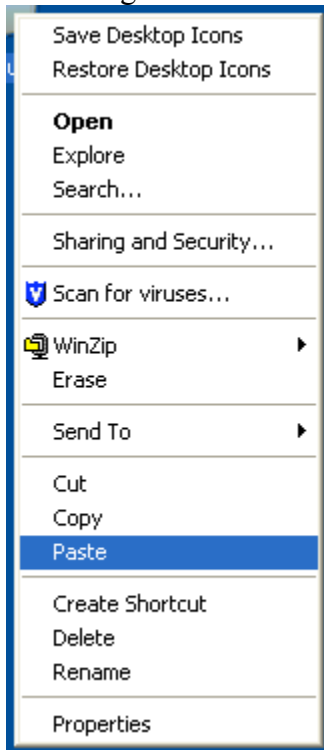

A window will open up with the drive letter of your CD ROM, below is an example:

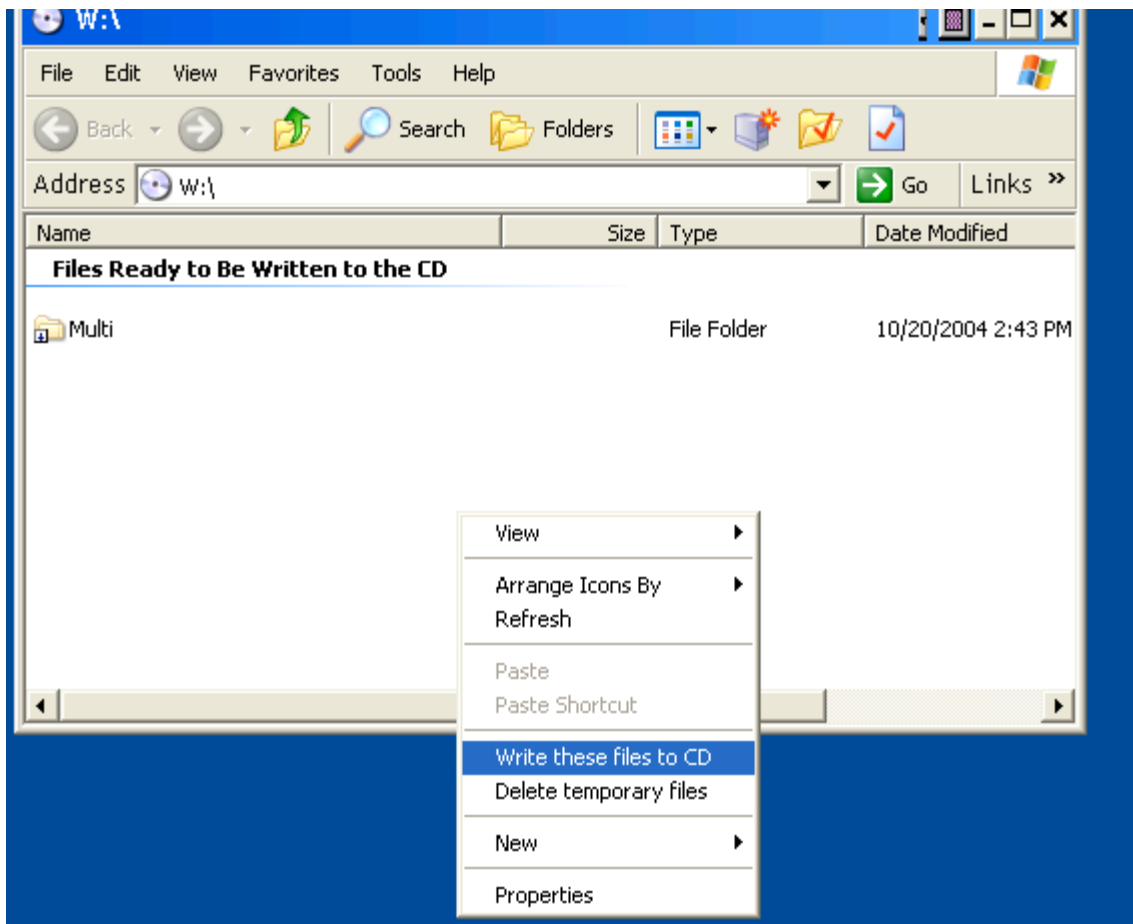

and choose “Copy”

Next “Right Click” on the empty CD window and choose “Paste”

After you have copied and pasted all of the files you want to save then “Right Click” on empty space of the window and choose “Write these files to CD” or choose File and “Write these files to CD”.

You will have a CD writing wizard window come up, name it what you want and choose next and it will write the files to the CD.

Repeat these steps if you want to write more files on the CD.
