

Truck and Heavy Equipment Operator: Instructors

[Introduction/Overview](#) | [Curriculum Requirements](#) | [Industry Skills & Proficiencies](#) | [CDL Program Highlights](#) | **Instructors** | [Occupational Outlook](#)

Jim Harrell and Troy Allen are recognized as industry professionals who teach students a challenging course curriculum. They prepare students to achieve industry certification and teach them to have a dedicated work ethic so that they may become productive members of the commercial truck driving industry.

“Our goal is to enable students to realize their occupational interests and individual personal goals in life. The dedication of our students is a testimony to their efforts to become rehabilitated in preparation for reentry into society,” they said.
