Global Studies Curriculum

The Global Studies program, formerly known as the International Education Program of Study, is designed to provide students with a foundation of general education core course that are enriched with international topics, perspectives and focus. The program will better prepare students to successfully pursue their professional and personal endeavors in a global environment. The curriculum reinforces a strong academic foundation for students who will continue to pursue their education beyond the two-year institution of higher education. Finally, the program helps students' understanding of themselves and their world.

In the program, students will be able to earn college credit hours in a variety of core curriculum courses with an international focus. Upon completion of at least 20 credit hours in designated "internationalized" courses (including an 8-credit-hour Foreign Language requirement) and the general requirements of the program, students will receive special recognition at Honors Day and Commencement ceremonies.

Student Admission into the Global Studies Program

- Students must meet the necessary documented prerequisites to enroll in a Global Studies course. Students may be denied enrollment if the class size limit has been reached.
- Students wishing to complete the Global Studies Program and receive recognition must apply for admission into the program no later than acquiring 9 credit hours that may apply towards completion of the program. A late admission must be appealed to the International Education Committee for review and approval.
- Global Studies Program admission applications will be available in the counseling office. Completed applications should be returned to the counseling office where in turn the applications will be forwarded to the International Education Committee for review and approval.
- The International Education will contact students who have been admitted into the program.

Completion and Recognition of Completing the Global Studies Program

- In order to complete the Global Studies Program, students must complete 20 credit hours in designated "internationalized" courses with a "C" or better in each class. Those 20 hours include:
 - a. At least 8 credit hours in a foreign language. A student may test out of the foreign language requirement. If so, the student will be recognized as completing the 8 credit hours foreign language requirement, which will be applied towards the completion requirements of the Global Studies Program.
 - b. At least 6 credit hours in designated in core-internationalized courses (see list below)
 - c. At least additional 6 credit hours in core-internationalized courses AND/OR designated elective internationalized courses
