

# Welcome to Lee College. . . Opportunity Begins Here!

## Welcome to Lee College:

If you are a new student, we hope you will find what you want here. Be sure to take advantage of the many services available to assist you as you pursue your college goals.

If you are a returning student, thank you for continuing your education with us. Based on our studies, we know that our certificate and degree holders do well in the workforce and upon transferring to a baccalaureate granting college or university. We will do our best to make sure this is true for you as well.

This year Lee College is celebrating its 75th Anniversary. It is a significant milestone that demonstrates that Lee College is one of the oldest community colleges in the country. The foresight of those who led the effort 75 years ago was remarkable. And yet, despite our long history, much about us is new. New facilities have been added along with up to date technology. New programs of study are being created and others are constantly under revision to assure that they meet your needs.

One thing, however, has not changed. Lee College continues to be the lowest priced post secondary educational opportunity for residents of the Baytown district. It is a little known fact that district students pay only about 20% of the cost of their education. The rest is borne by Baytown and State of Texas taxpayers. Even our out-of-district state residents pay only 70% of the cost with Texas taxpayers providing the rest. It is as if Baytown residents receive a grant worth 80% of the cost of their education and other Texas residents receive a grant equal to 30% of the cost.

Don't let the low tuition and fees confuse you. Your education at Lee College costs much more than you are paying. That's why we can provide the quality opportunities that we do.
