KIDS AT COLLEGE PREVIEW DAY

Join us at the 4th Annual Kids at College Preview Days to learn more about the active and engaging summer camps Lee College has planned for your child(ren)! Designed for children ages 5 to 17, these camps will provide a summer of educational, creative and athletic fun! The Preview Days will feature hands-on activities, prizes, giveaways, interactive demonstrations from camp instructors and information sessions about registration. Camps run weekly from June 4 – August 17, 2018.

Baytown: Saturday, March 24, 2018, from 9 a.m.-12 p.m., at the Lee College Sports Arena located at 200 Lee Drive, Baytown, TX 77520.
Liberty: Saturday, April 7, 2018, from 9 a.m.-12 p.m., at the Lee College Education Center – South Liberty County located at 1715, Highway 146, Liberty, TX 77575.

Kids at College is a summer camp program provided by Lee College. After more than 20 years of summer fun, Kids at College strives to improve course offerings each year.

Camps are divided into age brackets ensuring age-appropriate classes every child will enjoy. Public, private and home-schooled students are all welcome to attend.

Mother of two, Angie L. said, “The camps were great! Structured, but still fun! My 12 and 10 year olds both came home exuberant and ready to tell all about their day! I was super impressed!”

Creative Arts and Crafts, AutoCADD, Minecraft Designers, Culinary Cooking, EnergyVenture, Creative Writing, Math, Volleyball, Basketball, Let’s Rock and Hip Hop Recording and Ceramics are just a few popular camps offered this summer.

Alisha S., whose child attended EnergyVenture, recalls her satisfaction with the popular camp: “EnergyVenture is a hidden gem in the community! Kids get to experience a work field that they might like to pursue when they get older. It’s a great opportunity to have fun and meet new friends.”

With locations in Baytown and Liberty, TX, parents can select a camp that’s most convenient for them. The growing list of camps offer varied dates, start/end time and price, allowing parents to find a camp that fits both their schedule and budget. Financial assistance is available for those who qualify.

Kerri H., whose child attended in 2017, said “I love Kids at College. It’s convenient for my work schedule. The instructors are great and I feel confident that they have my kid’s best interest and safety at heart.”

In a post-2017 summer camp survey, 96.5% of parents said they planned on enrolling their child in 2018.

IT’S ALL ABOUT MONEY

Studies have shown that finances are frequently blamed for high divorce rates in America; specifically when it comes to disagreements about managing household finances. It’s not uncommon for one partner to focus on saving for the future while the other sees nothing wrong with maxing out a credit card. Often, this single issue can eclipse everything else in what is otherwise a successful relationship. That’s where we can help! The CWCD is offering a FREE Marriage and Money Workshop where students can learn the importance of communication, shared planning, creating a budget, common credit mistakes, investment strategies, tax deferred savings and types of life insurance. The course is scheduled for Tues., Apr. 10, from 6:15 p.m. - 7:45 p.m. at the ATC (room 220) at Lee College.

The CWCD will also have a workshop on Negotiating Your Electrical Bill for individuals interested in learning how to read their smart meter. This hands-on workshop will help students better understand their electrical consumption and identify what they should be paying for their monthly electrical bill. Bring your entire electric bill, pen and paper.

Cost: $19. Courses are scheduled for Tues., Apr. 17, from 5 p.m. - 8 p.m. at the Education Center - South Liberty County and Thurs., May 24, from 5 p.m. - 8 p.m. at the ATC (room 221) at Lee College.

FAST-TRACK TRAINING
for jobs in fast-growing industries!

The US Department of Labor H-1B Ready to Work Petrochem Grant is a FREE opportunity to help jump start or advance your career.

- Have you been underemployed or unemployed for six months?
- Do you have a GED or Diploma?
- Are you a US Citizen who can pass a drug screen and background check?

If you answered “Yes” to these questions, then you may qualify for the DOL H-1B Ready to Work Grant! All students who meet the qualifications are encouraged to apply. Preference will be given to veterans. The training you could receive through this grant would prepare you for a career that falls under the High-Skill, High-Growth jobs targeted by the Gulf Coast Workforce Board.

Courses offered include: Pipefitting, Welding, Millwright, Electrical, Instrumentation, and Process Tech Refresher.

Let us help you find out if you qualify!
Contact Meia Taylor, Grant Recruiter, at 281.425.6311 or by email at ttaylor@lee.edu.

READ WHAT OUR STUDENTS SAY IN: STUDENT SUCCESS STORIES (pg.6-7)
Grady Washington, 33, was born and raised in Baytown. Prior to enrolling in the U.S. Department of Labor H-1B Ready to Work Grant (DOL Grant) at Lee College, Washington was employed by Walmart at a distribution center doing general warehouse work. He decided to apply for the Grant looking for an opportunity to improve his career and life.

Washington decided on instrumentation after being inspired by his brother, who also works in the field. “He enjoys his job and the hours and pay are great,” says Washington about his sibling. He enjoyed the Program saying, “The staff and instructors made the class easy. They really put their all into it.”

Washington has successfully completed his training and will continue to achieve his next goal of finding a career in the field. When asked what advice he would give to other students considering applying for the Grant, Washington said, “Do it now!”

Gerardo Guerrero, 20, was born in Texas and has lived in Baytown for 12 years prior to relocating from Pasadena. He worked in construction for many years, but decided to apply for the DOL Grant in hopes to find better employment opportunities. Guerrero pursued the Welding Program after having enjoyed some previous experience in the field. “I did a little bit of welding before and I loved it. Plus, I heard about how much money can be made in the field and decided to go for the opportunity,” he said. Guerrero enjoyed the “positive environment” of the course in addition to the fact that “They don’t just teach you about welding, but also what else is used in the field.”

Guerrero successfully completed the training. His next goal includes finding a job in the field, or possibly enrolling in credit courses. His advice to other students who are considering applying for the DOL Grant is, “Go ahead and do it. If you’re interested in a certain field, try it out and finish the training. Then decide if that type of work is what you want to pursue.”
Corey Arvie, 35, was born in Galveston and has lived in Baytown for over two and half years, after having relocated from Anahua. He worked as a general laborer and was trying to figure out how he was going to get into instrumentation when he heard about the DOL Grant from a friend. “I was looking for a better future and saw it as a sign from the Lord,” Arvie said. He found the most challenging portion of the training to be math, but credits this to having been out of school for years. Arvie did, however, enjoy the classes and meeting new friends.

His next goals include finding a career and running his own work crew. He encourages prospective students to “Just do it! It will pay off!”

Mark Martinez, 22, was born and raised in Baytown. While Martinez got by doing electrical work for industrial contractors, he was unsure of what he wanted to do with his career. Martinez was looking to better his future for both himself and his family, which prompted him to apply for the DOL Grant and pursue a certificate in the Instrumentation Program. “I was really interested in learning something new and different,” he said. Martinez recalls that the most challenging part of the training was learning things outside of his “comfort zone,” but was encouraged by the many new friends he met along the way. Martinez encourages other students to “Go for it and take a chance to learn something new.”

David Sanders, 36, was born in Webster. He had been underemployed since November of 2014 and, after struggling to get by, decided to apply for the DOL Grant. Sanders recalls, “I had already been wanting to go back to school and it was the perfect opportunity.” Sanders enrolled in the Electrician Program and loved it!

“My instructor was awesome. I had more fun in this course than I’ve had in a long time,” Sanders said. He has since been hired by UTLX Manufacturing as a mechanical technician. His advice to prospective students is simple … “Stop waiting!”
HEALTHCARE

The Dental Assistant Program prepares students for entry-level positions in one of the fastest growing healthcare fields - Dental Assisting! This course is a study of pre-clinical chaired assisting procedures, instrumentation, infection and hazard control protocol, and equipment safety and maintenance.

The Dental Assistant Program starts April 17 and runs through June 19. Classes are held Tues. and Thurs. nights from 6 p.m. -10 p.m. at the McNair Center (room 121). Cost: $1,969

In-person registration is required. Please visit our office located at 909 Decker Drive, Baytown, TX, or call 281.425.6311. For more information, visit our website at www.lee.edu/healthcare.

INTERLOCK AND CONTROL CIRCUITRY TROUBLESHOOTING WORKSHOP

Course Purpose
The course is designed to meet the individual troubleshooting needs from entry level to the most experienced technician. Basic techniques and a unique 3-step methodology of troubleshooting circuitry used to interlock critical equipment will be taught. Emphasis on voltage checks, neutrals, grounds, relay logic, PLC logic, DCS logic, print reading skills and safe use of test equipment assures immediate benefits. The workshop is 90% hands-on activities solving simple to complex problems through the use of IEC Simulations’ schematics, interlock Simulator and test equipment.

How Your Company Can Benefit
✓ Gain practical working knowledge of troubleshooting circuitry with 90% of class time devoted to hands-on activities.
✓ Improve troubleshooting efficiency by an average of 84%.
✓ Course may be used for PSM Compliance issues involving 3-year frequency for proof of knowledge, skills and ability.
✓ Employers will reduce downtime, see improved workforce consignee and enjoy a safer workplace.

Who Should Attend
✓ Current technicians and specialists seeking a refresher course
✓ Entry-level technicians looking to expand their troubleshooting knowledge
✓ I&E and PSM Contractors and employees
✓ Petrochemical maintenance employees

Course Details
All courses are two 8-hour days from 8 a.m. - 4:30 p.m.
Classes are scheduled for: Mar. 27-28, Apr. 10-11 and May 16-17.
Cost: $695

How To Register
Register online at www.lee.edu/workforce and click on “Intro to PLC” or call 281.425.6311

In partnership with

www.lee.edu/workforce • 281.425.6311
The Texas Workforce Commission, through its Gulf Coast Workforce Board and Workforce Solutions (one stops), is making funds available for critical training to help offset the economic impact of Hurricane Harvey. The state is willing to pay for an individual’s training – new skills or expanded. Need help identifying and connecting with workers looking for employment in your sector? There’s support for that, too! Training can be delivered to your door, at your job site or in a Lee College location. Just tell us what you need and we will build to suit. Training options already identified and ready to deploy include but are not limited to:

- OSHA Training
- Roofing
- Drywall
- Electrical
- Carpentry
- Equipment Operators
- Hazmat
- Technical Training

If you’re interested in taking advantage of this opportunity, contact the Center for Workforce and Community Development today at 281.425.6311 or visit us at 909 Decker Dr., Baytown, TX. We will help you find out if you qualify!

GRADcafe offers FREE services to help you decide on a career, apply to college and find the financial aid you need. Whether you want to attend college to get a degree or work on a certificate in a professional trade, we are here to guide you through every step. You’re never too young or old to get started!

The Lee College Small Business Development Center (SBDC) provides individuals with one-on-one consulting and information assistance to foster economic growth in the community. Assistance from an SBDC is available to anyone interested in starting a small business or improving or expanding an existing small business. We provide a wide variety of information and guidance in a central and an accessible location, and management assistance to current and prospective small business owners. Our up-to-date business advisory services, free of any fees, include: assisting small business owners and start-ups in finding financing, loan documentation packaging, feasibility studies, business plan preparation, production matters, organization and marketing.

UPCOMING TRAINING & WORKSHOPS

The Small Business Development Center, in partnership with the Dayton Chamber of Commerce and the Dayton Community Development Corporation, will offer a six-week session of business workshops at the Dayton Community Center. Each workshop was designed to enhance the set-up and/or growth of a small business. All courses are held at the Dayton Community Center located at 801 S. Cleveland Street, Dayton, TX. Each course is $59 or $295 for the full six weeks of business workshops. The first 12 individuals who register for all six courses will receive $100 off the original fee! Please call the Lee College SBDC at 281.425.6309 or visit us online at www.lee.edu/workforce/sbdc for more information or to register.

Workforce Foundation
Scholarship

Thanks to the generosity of the Lee College Foundation, the Center for Workforce & Community Development at Lee College offers Student Scholarships each quarter when funds are available. The scholarship awards funding toward the cost of one specific workforce training program up to a maximum of $750 and is competitive based on an essay. Non-degree seeking students (students not formally enrolled in a college credit class) age 17+ are eligible to apply. The student must be a part-time, non-credit student who is in good standing and has no outstanding debts to Lee College.

Lee Alliance Foundation
Scholarship

Awarded to a part-time student who is in good standing and has no outstanding debts to Lee College, and is a resident of the Lee College service area. Preference will be given to students in specific workforce training programs; if no appropriate student is eligible, then the scholarship will be awarded on the basis of financial need.

Project LeeWay at Lee College

Project Leeway at Lee College has given hundreds of students the chance to overcome significant personal challenges and transform their lives through higher education. Funded through the Carl D. Perkins grant, Project LeeWay assists economically disadvantaged students, students with disabilities, displaced homemakers, students with limited English proficiency and single parents (including single, pregnant women) with services like childcare assistance, textbook assistance, and transportation assistance in the form of gas cards or bus tickets for technical students pursuing 6 or more credit hours at Lee College. Eligibility of services is determined by financial need and availability of funding. The Project LeeWay office also houses community resource information for referrals, and the Lee College food pantry, which are open to all students.

For more information, contact:
Brenda Garcia, Project Leeway Secretary
Lee College Main Campus - Moler Hall, Room 107
281.425.6492 • bgarcia@lee.edu • www.lee.edu/project-leeway
Lee College’s CWCD offers a variety of non-credit programs, courses and classes for individuals who are on a journey to professional and business success or who want to enhance the quality of their personal lives by: learning new skills, acquiring knowledge that’s useful in the workforce or their daily lives, increasing their physical fitness level, developing a new hobby or just having fun.

**Mission Statement**
Lee College Center for Workforce and Community Development (CWCD) is dedicated to providing high quality, non-credit training opportunities and services designed to enrich lives.

**Nondiscrimination Notice**
Lee College is an open enrollment institution and offers a variety of vocational and academic programs. Lee College does not discriminate on the basis of gender, disability, race, color, age, religion, national origin or veteran status in its educational programs, activities, or employment practices as required by Title VII, Title IX, Section 504, ADA, or 34 C.F.R. Limited English proficiency is not a barrier for admission to the College. Lee College will also take steps to assure that national origin minority persons who lack English language skills can participate in all education programs, services and activities.

**Philosophy**
We believe in students as our clients, employers as our most important resource, and quality education as our most important product.

**Why Us?**
- Quality education
- Affordable and convenient
- Caring and supportive staff who will guide you every step of the way
- Lifelong learning opportunities for individuals of all ages to develop personally or professionally
- State-of-the-art facilities
- Career in relatively short period time
