The Emergency Medical Technician's scope of practice includes basic skills focused on the acute management and transportation of critical and emergent patients. This may occur at an emergency scene until transportation resources arrive, from an emergency scene to a health care facility, between health care facilities, or in other health care settings. Emergency Medical Technicians work alongside other EMS and health care professionals as an integral part of the emergency care team. Emergency Medical Technicians’ scope of practice includes basic, non-invasive interventions to reduce the morbidity and mortality associated with acute out-of-hospital medical and traumatic emergencies. Emergency care is based on assessment findings. Additionally, Emergency Medical Technicians provide care to minimize secondary injury and provide comfort to the patient and family while transporting the patient to an emergency care facility.” (NREMT)

The goal of this 272-hour program (clinical time included) is to train and develop the individual student into a functioning member of the emergency medical workforce. The 72-hour clinical and internship portion of the EMS training program will provide the student the opportunity to acquire their newly learned knowledge and skills in the hospital and the field setting under the supervision of a clinical preceptor. Additionally, an AHA BLS Provider Course is provided within this course and a requirement prior to attending clinical rotations. This program will provide the necessary training and skills required to take the National Registry exam for EMT. Upon successful completion of the exam, the student will be eligible to become certified by the National Registry as well as by the Texas Department of State Health Services. Charges for the exam and the DSHS application for certification are not included in the cost of the course.

Cost of program is $1,410.33. Additional costs include an online background check ($40, payable by student), drug screen ($40, payable by student), textbooks, and supplies.

Designated uniform:

Textbooks: (available at Lee College Bookstore)
- The American Academy of Orthopedic Surgeons and Emergency Medical Services (EMS), 11th Edition
- The American Academy of Orthopedic Surgeons and Emergency Medical Services (EMS), 11th Edition Workbook

Estimated future cost upon graduation: NREMT Exam fee – $80, DSHS Certification Fee – $64, DSHS fingerprint and background check $40.

Estimeted Tuition

CAREER PATHWAY

High School Diploma or GED → EMT Program/ Certification → EMT Technician Yearly Salary: $21,880-$56,990 → Further Opportunities: Firefighter or Emergency Management Director

HB 1508 - Students who have a felony conviction should check with the Program Manager of their program to determine if a licensing exam is required to be employed. Some examples include but are not limited to education, nursing, cosmetology, and technology programs. Legislative changes, specifically, HB 1508 from the 85th Texas legislative session section 53.151 (2017), require notification to applicants and enrollees regarding the consequences of a criminal conviction on eligibility for an occupational license. Students may be ineligible for an occupational license upon completion of a program due to prior convictions.
