

Services

Professional Consulting Services

The Lee College SBDC offers free, confidential, one-on-one consulting services to help you start your own business or manage your existing business. Both existing and potential business owners can take advantage of our professional business consultants, who bring both knowledge and practical business experience to each counseling session.

Our consultants can help you prepare for the business challenges you will encounter, ranging from start-up and expansion through marketing and technology issues. Businesses can take advantage of our experienced counselors' ability to assess, review, compare, and advise you on a variety of business ideas and opportunities.

Our business consultants will work with you at your own pace and schedule for whatever length of time that you deem necessary.

SBA & Conventional Loan Assistance

The Lee College SBDC will assist you in preparing the necessary documents to apply for either a Small Business Administration (SBA) Guaranteed Loan or a conventional loan.

Financial institutions require that businesses justify their loans with proper and detailed documentation. The Lee College SBDC will help you develop an effective loan package that includes market information, cash-flow projections, and a business plan.
