

Incentive Program

The First-Year Experience incentive program is designed to help students navigate their first year at Lee College through the use of various resources. Hear about the experiences of our students in the videos below.

Incentive Program

Already completed your first year? All activities and events are open to all students! However, only students within their first three semesters are eligible for the scholarships.

Every Fall and Spring semesters various events and activities will take place on campus for all students to attend. By participating in identified events and activities, eligible students could earn a \$500 scholarship by completing the following:

- **Automatic \$500 Scholarship** — Attend a total of 15 identified activities or events within the semester to automatically qualify for a \$500 scholarship (awarded each semester, activities attendance does not roll over from semester to semester).
- **Drawing \$500 Scholarship** — For each event or activity attended within the semester, your name will be entered for a chance to win a \$500 scholarship. The drawing will take place each semester, during the End-of-Semester Celebration.

To sign up for FYE Incentive Program events and activities, visit myLC Campus and click the FYE activities tile.
