1. **Approval of Minutes** – Minutes were approved as written.
2. **Informational Items**
 - a. Scott Bennett, Registrar – appropriate process to effectively enforce 6 drop limit. A transfer student was allowed one semester to bring in transfer classes. Issue is when we allow a student to drop a class that has already reached limit. We cannot continue to do this and need to reflect wording in catalog. Does wording change in catalog have to go through CAAC process? Subcommittee discussion was recommended for future but status quo for now was agreed upon.
 - b. Academic & Technical Deans – Dean Childress did not have any new informational items.
 - c. Dr. Veronique Tran, VP of Instruction: discussed requirements for Core Curriculum change. Mainly centers around 4 objectives for learning outcomes which need to be included as attachments to requests. Information on what needs to be included in submission will be available in portal. THECB used to have a rolling submission deadline but now it is June 30, however they have had technical difficulties with new system so this has allowed us more time. We should know before Fall 2017 if approval has been given for MUSI 1303 and PHYS 1417.

Request that ENGT 2307 be run as a 48 contact hour local course instead of a 64 hour class. Request to drop lab for Fall as students are needing to graduate. Wording on request needs to be clarified and reflect change of 3 lecture, 1 lab to 3 lecture, 0 lab and effective term should be Fall 2018. In the interim and after further discussion with Dean, it was agreed that the Registrar can adjust the course to allow those who need the course before Fall 2018. Motion carried.

e. Paul Arrigo

i. Academic Integrity Taskforce might be bringing about some policy changes which is the charge of the committee.
Committee chair has been appointed (Paul Arrigo), and coordinator. He has been in contact with the center for academic integrity. What is the climate of academic integrity here on campus? Completed a rating system to try and determine our strengths and weaknesses, assembled background policy information. Completed a survey – how often are people cheating (collusion is a part of cheating). What is the climate? Do we need to be more educated? Does the policy need to be changed? Are sanctions effective? Will revisit in Fall. Will possibly be a topic for Professional Development in Spring.

5. **Open Forum** – Professional Development week is approaching. Please remind divisions about the importance of attaching documentation to requests and the importance of accuracy in submitting these requests.

Submitted by Jodi Rodriguez for Mollie Santana, CAAC Secretary.
