Emergency CAAC Request

June 12, 2018

Minutes

Emergency request from Richard Tunstall representing Technical Studies. Richard had submitted a request required by WECM mandates for INTC 2459; per his conversations with Troy Oehler, there was apparently a glitch in the Curriculum Maintenance system that did not move request 1141 up to a level two (division approved) status as it should have. The issue was resolved after the deadline for our April CAAC meeting; this confluence of circumstances led to it being unresolved following the final CAAC meeting of Spring 2018.

Items of concern:

- INTC 2459 (1141)
- ELPT 1329 (1266)
- ELPT 2315 (1267)
- INTC 1342 (1268)
- INTC 2459 (1269)

For our purposes, they can be dealt with as a consent agenda (barring objection, of course) and treated as a single motion as they all pertain to the same WECM issues.

With no objection Keith Coleman made motion; Vicki Hart and Ingrid Wallace seconded.

Motion passes unanimously.
