Supplemental Instruction (SI) is an academic assistance program designed to improve students' academic performance, increase retention, and work as a bridge between students and course content. SI Coaches facilitate a peer-to-peer learning environment through weekly study sessions. They also attend all lectures for their assigned courses and hold office hours for students if additional assistance is needed.

If you would like to take a course with SI, please refer to the list provided or look for the following class note when registering: Supplemental Instruction, which includes a supplemental instruction coach in the classroom and guided study groups, will be provided for this course.
