

EnergyVenture Camp Invites First-Time Students to Apply for Scholarships

BAYTOWN, TX — The Center for Workforce and Community Development's Kids at College program at Lee College is excited to invite first-time students to apply for a scholarship to this summer's EnergyVenture Camp. With the help of industry partner, ExxonMobil, full scholarships are available to qualified students covering all fees associated with camp activities.

EnergyVenture is an intensive 36-hour week-long day Kids at College Summer Camp designed to help students ages 12-14 years old develop their focus on the energy industry and the career opportunities it holds. The program was developed for young students to learn through fun, hands-on STEM experiments and activities in science and computer labs, in hopes to increase awareness of the good paying, high skill jobs available in the industry.

EnergyVenture Camp will run June 4-8, and July 9-13, Mon.-Thurs. from 8:30 a.m.-4:30 p.m., and Fri., 8:30 a.m.-12 p.m. To apply for a scholarship, parents or guardians must bring their child's Texas School ID, School Report Card, or Progress Report to 909 Decker Dr., Baytown, TX, 77520. Students must be 12 years of age on or before the first day of camp.

"EnergyVenture camp is a gem in our community," said Angela Oriano, Ph.D., Vice President Workforce & Corporate Partnerships. "The camp helps to foster students along a career path to the Gulf Coast's energy industry."

For more information about EnergyVenture camp, visit the Kids at College website at www.lee.edu/kids or call 281.425.6311.
