A world of opportunity and adventure awaits ...

Start Here. Finish Strong.
Lee College’s Center for Workforce and Community Development (CWCD) offers a variety of non-credit programs, courses and classes for individuals who are on a journey to professional and business success or who want to enhance the quality of their personal lives by: learning new skills, acquiring knowledge that’s useful in the workforce or their daily lives, increasing their physical fitness level, developing a new hobby or just having fun.

Mission Statement
The CWCD is dedicated to providing high quality, non-credit training opportunities and services designed to enrich lives.

Nondiscrimination Notice
Lee College is an open enrollment institution and offers a variety of vocational and academic programs. Lee College does not discriminate on the basis of gender, disability, race, color, age, religion, national origin or veteran status in its educational programs, activities, or employment practices as required by Title VII, Title IX, Section 504, ADA, or 34 C.F.R. Limited English proficiency is not a barrier for admission to the College. Lee College will also take steps to assure that national origin minority persons who lack English language skills can participate in all education programs, services and activities.

Philosophy
We believe in students as our clients, employers as our most important resource, and quality education as our most important product.

Why Us?
- Quality education
- Instructors with real world experience
- Affordable and convenient
- Caring and supportive staff who will guide you every step of the way
- Lifelong learning opportunities for individuals of all ages to develop personally or professionally
- Career-ready in relatively short period time

For James Keyes, 30, applying for the U.S. Department of Labor’s H-1B Ready to Work Grant was a significant step toward turning his life around. Born in Channelview, TX, Keyes grew up alongside his older sister and was no stranger to financial challenges. His mother was a single parent who lived paycheck to paycheck to support the family throughout his younger years. “She did everything she could to keep food on the table and teach us right from wrong,” Keyes recalls about his mother, “she always supported me through my rough times. She never turned her back on me.”

Growing up, Keyes remembered both parents working long hours to financially support the family. Unfortunately, this provided Keyes with the chance to develop a troubled path. “While my mom was gone working turnarounds, I wouldn’t stay home,” Keyes admits, “I’d go out with friends and play in the streets.” His father worked as a police officer to support his own wife and step children in addition to helping support Keyes, his sister, and his mother. “I saw him every other weekend and any chance he could,” Keyes said.

By the age of 15, Keyes was introduced to drugs and would battle a drug addiction for years to come. “I dug myself into a hole,” he admitted. Keyes dropped out of high school during his junior year after becoming a father to two sons. “I got a job sacking groceries to provide for my family,” he said. His battle with drug addiction continued to spiral downward and ultimately lead to his arrest. “I believe that moment saved my life,” he said. After being arrested, and finding out that he was about to be a father to a baby girl, Keyes decided it was time to change his life.

Keyes moved from Baytown to Webster after attending a State Rehabilitation Program. “I completed the Rehabilitation Program and never looked back,” he said. “Over the years, I’ve had to hustle. I’ve had to prove myself and dig myself out of this hole.” Keyes started working as an Electrical Apprentice and was looking to advance his skills in the field when he heard about the U.S. Department of Labor’s H-1B Ready to Work Grant. “My previous record created some setbacks, but this was a great way to get some more experience and good referrals,” Keyes said.

Just four days before Keyes completed the last class, he was offered a job as a Journeyman for JAM Electrical Inc. “The course gave me the skills to get this job and the pay raise has been a significant improvement for my finances. I’m able to support my family and I’m a much better person now,” Keyes said. “I love spending time with my family, and teaching my kids how to play sports. I strive to be a positive influence on my sons and my daughter.”

For the first time this holiday season, Keyes will have the opportunity to shower his children with all the gifts on their Christmas lists—something he never had the chance to do before. “I’m proud that I’m going to be around my whole family this Christmas and be praised for everything I’ve accomplished.”

“I’m able to support my family and I’m a much better person now.”
AWS Combo Level 2 Welder Program (Sense)
Condensed, fast-track training where students gain experience and develop technical skills to become a welder in numerous industries. Skills attained can be used to become a proficient welder in many industries which may include commercial building developments, Petrochemical field maintenance, Petrochemical construction, many others, etc. Content covers many areas to include gas metal arc welding (MIG), gas tungsten arc welding (TIG) other types of welding to include FCAW. Students and attendees will have an opportunity to learn/improve: Safety practices and performance, Welding Fundamentals and Metallurgy Principles, Application of proper welding techniques to different metals, and Welding practices.
Cost: Call 281.425.6311 for pricing.
Dec. 3 – Feb. 25, 2019 · Mon. – Thurs. · 7:30 a.m. – 3:30 p.m.
McNair, Lee College McNair Center, Room TBA

Pipefitting NCCER Level 1, 2
NCCER curriculum based certificate which includes CORE, Pipefitter Level 1, and Pipefitter Level 2. Successfully completed modules will be submitted for upload into the NCCER National Database, through our partnership with CMEF. Cost: $2,191
Dec. 3 – Feb. 28, 2019 · Mon. – Thurs. · 7:30 a.m. – 3:30 p.m.
McNair, Lee College McNair Center, Room 122

Pipefitting NCCER Level 3
Identification, description, and application of piping standards and specifications. Introduces identification and use of various metallic and non-metallic piping materials, identification and installation of valves, and materials take offs. Course is designed to prepare students for employment as an entry-level pipefitting helper with area contractors. NCCER module credit will be uploaded onto the student’s transcript within the Automated Nation Registry. NCCERConnect electronic text will be utilized. Cost: $1,075

The U.S. Department of Labor’s H-1B Ready to Work Grant

A FREE opportunity to help jump-start or advance your career!

The U.S. Department of Labor’s H-1B Ready to Work Petrochemical Grant is a free opportunity that pays for training to help unemployed and underemployed individuals find work quickly upon successful completion.

If you have been underemployed or unemployed for six months, have a High School Diploma or GED, and are a U.S. citizen who can pass a drug screen and background check, then you may qualify for the DOL H-1B Ready to Work Grant! All students who meet the qualifications are encouraged to apply. Preference is given to Veterans. The training prepares you for a career in the fast-growing petrochemical industry.

Most training courses are completed within 12 weeks. Both day and evening class options are available. Classes are limited to 15 students allowing instructors ample time to provide one-on-one, high-quality instruction.

Let us help you find out if you qualify for the Ready to Work Grant today by contacting Meia Taylor, Grant Recruiter, at 281.425.6311, or by email at ttaylor@lee.edu. Visit our website at www.lee.edu/ready2work.

Customized Corporate Training

With a storehouse of subject-matter experts (SME), instructors, and facilities, the Center for Workforce and Community Development provides custom-tailored training packages to meet the specific needs of local businesses. The CWCD will begin with a needs analysis to determine and understand your business training goals and then develop a plan to meet those needs.

Customized training services are available at your site or ours, and include:

- Customized curriculum development
- Pre-employment assessments
- Skills gaps analysis
- Conferences and seminars for professional development
- Internship development
- Assistance with employment recruitment and placement
- And much more!

Looking for specialized employee training? Contact Marsha Tuha, Director of Workforce Development at 832.556.4450, or by email at mtuha@lee.edu.

Interlock and Control Circuitry Troubleshooting Workshop

The course is flexible enough to meet the individual troubleshooting needs from entry-level to the most experienced technician. The workshop is designed to teach basic techniques and a unique 3-step methodology using circuitry used to interlock critical equipment. The workshop is 90% hands-on activities solving simple to complex problems through the use of IEC Simulations’ schematics, interlock Simulator and test equipment. Individual skill level assessments are documented and average performance improvement in troubleshooting efficiency is 84%. (May be used by client for PSM Compliance issues involving 3-year frequency for proof of knowledge, skills and abilities.) Cost: $695

Certified Fiber Optics Technician Training (CFOT)
This introductory three-day fiber optics course is designed for anyone interested in learning basic fiber optic networking. This program combines theory and 75% hands-on activities to prepare the student to take the CFOT (Certified Fiber Optics Technician) test that is sanctioned by the FOA (Fiber Optics Association) and given and graded the final class day. This course also introduces the student to industry standards governing FTTD (Fiber To The Desk), FTTH (Fiber To The Home), LAN/WAN fiber networks, and further introduces the student to basic fusion and mechanical splicing. Students will learn how to identify fiber types, recognize various connectors used in fiber installation; and install, terminate, splice, and properly test installed fiber cable to existing standards. Standards covered: NECA/FOA-301-2004, EIA/TIA 568-B.3, ANSI/TIA/EIA 607-A, and NEC Article 770-50, anyone interested in becoming a Certified Fiber Optics Technician should attend this class.

Cost: $700
Mon., Feb. 4 – Wed., Feb. 6, 2019 · 8 a.m. – 5 p.m.
Baytown, Lee College ATC, Room 220
Course ID: 192LOTT10911

Certified Fiber Optic Specialist/Testing and Maintenance (CFOS/T)
This two-day (16-hour) program is designed to offer advanced training to anyone involved with the testing and maintenance of fiber optics networks. A focal point in the program is to offer a general, easy to understand, approach to fiber optics testing standards with little theory and considerable hands on activities. This comprehensive program explains the variety of testing standards, equipment and technological approaches used in fiber network testing and splicing and how to choose among them. Cost: $675
Thurs., Feb. 7 – Fri., Feb. 8 · 8 a.m. – 5 p.m.
Baytown, Lee College ATC, Room 220
Course ID: 192LOTT10912

Certified Fiber Optic Splicing Specialist (CFOS/S)
This two-day, 16-hour Splicing Specialist Training includes a complete PowerPoint presentation explaining the importance of high-performance splicing and further details the points necessary to achieve these splices. The depth of this presentation is much greater than most textbooks and provides background information about splicing that is very important to the student. An overview of OTDR functions and trace understanding is also provided during this presentation. 85% hands-on classroom activities will provide training in both fusion and mechanical splicing of either single or multimode fiber optic cables. Inside or outside plant fiber optic cable types will be utilized at instructor’s discretion during these hands-on sessions along with fiber optics enclosures and splice trays. The student will further be required to achieve a splice loss of less than 0.15 dB for all splices and demonstrate proficiency in interpretation of splice loss using OTDR splice traces. This course may be taken after successfully completing the FOA CFOT course. Cost: $675
Sat., Feb. 9 – Sun., Feb. 10 · 8 a.m. – 5 p.m.
Baytown, Lee College ATC, Room 220
Course ID: 192LOTT10913

Fiber Optics Network Certification
Register online at www.lee.edu/workforce/fiberoptics · In partnership with BDI Datalink

Tuition includes course materials, FOA Reference Guide & industry recognized written certification examination. Financial assistance available.
Computer Illustration I (Adobe Illustrator)
In this course, you will see how Adobe Illustrator CC2018 can give you the power to design, draw, and color images quickly and easily. From drawing objects with the shape tools to mastering the all-important Pen tool to working with shape gradients, you’ll gain the techniques you need to produce stunning vector graphics. You’ll learn to apply and work with color, create shading effects and painterly brushstrokes, and add special effects. Cost: $170
Jan. 14 – May 6 · Mondays · 11 a.m. - 12:15 a.m.
Baytown, Lee College ATC, Room 237
Course ID: 192ARTC10531

Computer Illustration II (Adobe Photoshop)
Adobe is an image-editing program that lets you create and modify digital images. Ease of use makes the most essential functions available even to the novice, while the incredible depth and variety of its features make it well suited to the graphics professional. In this course, you will create original artwork, manipulate color images, retouch photographs, conduct image editing, and perform color painting. This is a beginning class where no previous knowledge is required, however, basic computer skills are necessary. Cost: $170
Jan. 14 – May 6 · Mondays · 9:30 a.m. - 10:45 a.m.
Baytown, Lee College ATC, Room 237
Course ID: 192ARTC20401

Integrated Software Applications I
This course will cover the Office 2016/Office 365 software suite. Basic word processing, spreadsheet, database and presentation topics will be covered. Specific items include creating and editing documents, creating tables and multispreadsheet report, enhancing page layout and design, formatting workbook text and data, performing calculations with formulas and functions, analyzing and charting financial data, building a database and defining table relationships, maintaining and querying a database, creating forms and reports, creating presentations, and adding media and special effects. Cost: $170
Jan. 15 – May 7 · Tuesdays · 6 p.m. – 8:40 p.m.
Baytown, Lee College ATC, Room 235
Course ID: 192ITSC10091

Introduction to Visual Basic Programming
Visual Basic Programming will introduce you to the world of coding (also known as programming). It is one of the easier programming languages to learn the basic steps and structure of a working program. Some uses of Visual Basic is in the creation of video games and in the development and management of database systems. Cost: $170
Jan. 14 – May 8 · Mon., & Wed. · 11 a.m. - 12:15 p.m.
Baytown, Lee College ATC, Room 235
Course ID: 192ITSE10311

Computer Skills for the Workplace
Most jobs today require a working knowledge of certain computer skills. Employers seek and reward employees with the skills and knowledge to send messages across the country via e-mail, use a spreadsheet to create a graph and paste it into a report, add and edit data in a database, understand the implications of file sizes, memory limitations, and network arrangements, and recognize the function and features of modern computer components. Cost: $119
Dec. 12 – Feb. 1 · Online
Course ID: 192PDD10721

Introduction to Windows 10
Welcome to Windows 10, the completely new operating system from Microsoft, which offers a more robust, more powerful, and completely unique computing experience. In this course, you’ll gain the foundation you need to get started right away using Windows 10. Cost: $119
Dec. 12 – Feb. 1 · Online
Course ID: 192PDD10921

Introduction to Quickbooks 2018
QuickBooks is designed for the small to midsized business owner who needs a fully functional accounting system that is also easy to use. When you enroll in this course, you will learn how this well-designed accounting software can make it a snap to set up a chart of accounts, reconcile checking account, create and print invoices, receipts, and statements, track your payables, inventory, and receivables, create estimates, and generate reports. Cost: $109
Dec. 12 – Feb. 1 · Online
Course ID: 192PDD60711

Keyboarding
If you want to learn touch-typing or improve your existing typing skills, this is the perfect course for you! In these lessons, you’ll use the Keyboarding Pro 5 program, a typing tutorial designed for personal computers, to learn how to touch-type. Cost: $119
Dec. 12 – Feb. 1 · Online
Course ID: 192PDD60721

Six Sigma: Total Quality Fundamentals
Learn how to effectively apply the fundamentals of total quality. In this course, students will learn how successful organizations apply quality to their everyday activities and use teamwork to make the most of employees’ abilities and potential. Cost: $119
Dec. 12 – Feb. 1 · Online
Course ID: 192PDD10751
Family-Friendly Courses

**Science FUNdamentals**
In this hands-on, fun, and exciting program, you will discover how amazing science is through fun projects fit for the family. Attendees will make and take home a wide assortment of gadgets designed to teach science concepts with recycled materials such as a phone charger, ecosystem, electric motor, and other cool projects. Each class covers a new concept and take-home project! For families with children ages 8 and up. Cost: $37

Sat., Dec. 15 - States of Matter 1 p.m. – 5 p.m. McNair, Lee College McNair Center, Room 123 Course ID: 192PLL70152

Sat., Jan. 12 - Science of Color & Color Theory 1 p.m. – 5 p.m. Liberty, Lee College Education Center South Liberty, Room 122 Course ID: 192PLL70151

Courses for Teachers

New School Year’s Resolution Vision Board Workshop for Teachers
A new year, a new you! This vision board workshop will help you create your ideal life and give you clarity to let your dreams materialize. When you make a vision board, you develop a clear understanding of what you want to create in your life. This half-day experience will give you the power and opportunity to intentionally define your dreams and resolutions. Supplies: Bring a sack lunch and 5-10 of your favorite magazines. Cost: $39

Fri., Dec. 7 · 9 a.m. – 1 p.m. · Baytown, Lee College ATC, Room 220 · Course ID: 192PLL70101

Reclaim the Joy of Teaching
At last! A practical, real-world workshop for teachers who are committed to making a difference in the classroom, but are feeling disillusioned, and are questioning their calling. This isn’t about putting on a happy face, but feeling miserable on the inside. This is about being able to lay your head on your pillow at the end of the day and know that you made a difference; that you took the challenges you faced and because of your increased awareness of your calling, you handled the day’s events in keeping with your deepest values. Now you can create a plan to handle those challenges that keep you awake at night. The workshop is the beginning of the transformative process of reconnecting and falling in love all over again with teaching. This vision is entirely possible—if you take action! Course fee includes lunch, Everything DiSC Workplace Profile, Comparison Report, Workbook, Handouts, Reminder DiSC Cards, and digital copy of Reclaim the Joy Teaching. Requirements: Valid email address and access to a computer to take the Everything DiSC Workplace Profile. Cost: $179

Sat., Jan. 19 · 9 a.m. – 4 p.m. · Baytown, Lee College ATC, Room 220 · Course ID: 192PDD70141

Life Skills

For Intellectually Disabled Students

Adult Education

ABE · General Education Development · English as a Second Language

A partnership between Harris County Department of Education’s Adult Basic Education and Lee College offers the community a path to education and careers. The Adult Basic Education (ABE) Program assists adults in obtaining the knowledge and skills necessary for work, further education, family self-sufficiency, and community involvement. General Education Development (GED) classes are held at the Adult Learning Center. Students are required to attend a student orientation where a test assessment will be provided.

Lee College Education Center
South Liberty County (LCEC)
1715 TX-146, Liberty, TX 77575
832.556.5660
Student Orientation:

OSHA 30 Hour General Industry
The OSHA 30-hour Construction Industry Outreach Training course is a comprehensive safety program designed for anyone involved in the construction industry. Specifically devised for safety directors, foremen, and field supervisors, the program provides complete information on OSHA compliance issues.
Dec. 3 – 19 • Mondays, Tuesdays, & Wednesdays 6 p.m. – 10 p.m.
Liberty, Lee College Education Center – South Liberty, Room 121
Course ID: 192OSHT20113

OSHA 10 Hour General Industry
The 10-hour General Industry Program is intended to provide an entry-level worker’s general awareness on recognizing and preventing hazards in a general industry setting.
McNair, Lee College McNair Center, Room TBA
Course ID: 192OSHT10003

OSHA 10 Hour Construction Standard
The Construction Safety Training Program is intended to provide an entry-level construction worker’s general awareness on recognizing and preventing hazards on a construction site. OSHA recommends Safety Certification Program courses as an orientation to occupational safety and health for workers covered by OSHA 29 CFR 1926.
